

GRABS

Live Wire, and Life Is Quick-
ly Snuffed Out

Walter Casperson Young St. Marys
Man Leaves Widow and Three
Months Old Babe

Walter Casperson, of St. Marys, met with a tragic death in this city last Tuesday afternoon about three o'clock.

Casperson was employed by E. K. Jackson, of Van Wert, in moving the old Grothman Garage building to the Wm. Siler farm, three miles east of town. Mr. Casperson climbed on top of the building to see that no wires were torn down in the progress out of town. At the corner of Main and Fulton streets he took hold of two electric wires to raise them over his head. The wires he took hold of were high tension wires and carried a charge of 2200 volts. The insulation was probably not heavy enough to hold the current and Casperson received a portion of the charge through the body. The shock caused him to fall from the building and the weight of his body broke the wires and the unfortunate man fell to the street on his head. Physicians were hurriedly summoned and worked with the injured man in an effort to save his life, but to no avail. He died twenty minutes after the fall.

Both hands of the victim were horribly burned and his face was badly bruised and a deep gash cut in his head by the fall.

Mr. Casperson was 24 years of age and leaves a wife and baby three months old.

The remains were taken to St. Marys by Undertaker Melster in the McDaniel & Melster ambulance.

AT THE OTIS HOSPITAL

John Pierstorff, who resides west of Shively's, is taking treatment at the hospital.

John Beeher, of Liberty township was operated upon the first of the week for nasa tumors. He is doing nicely.

John Beas, of North Sugar street, this city, suffered a severe attack of appendicitis last Tuesday and it is thought that an operation will be necessary.

A daughter of Dan Davis, of Durbin, was brought to the hospital the first of the week from Detroit and operated upon for appendicitis. She is doing fine.

Josephine Brown, who has been employed at the Mersman home, was operated upon last Friday for appendicitis. She is on the road to recovery.

Seth Long, of Montezuma, was operated upon last Tuesday for the removal of tumors. While the operation was a serious one, the patient is doing nicely.

The twelve year old son of John Drake, of E. Livingston st., had his leg broken Sunday, when he was run over by a binder. Dr. Otis set the fracture.

PHYSICIANS PREPARE TO FIGHT
THE DREADED PLAGUE

The Mercer county Medical society held a most interesting session on Tuesday afternoon at the city hall in this city.

A discussion was held on the Infantile Paralysis plague with Dr. W. C. Stubbs reporting a local case. Dr. Leiser, of Ft. Recovery read a paper on the subject of the cause, report and reading of paper, the two were jointly discussed by each member present.

Dr. H. G. Kowers of Chickasaw reported a very interesting clinical case which was freely discussed.

Reservoir Superintendent J. W. Makley while in this city last Tuesday, stated that the timbers for the big dredge were on their way from Chicago to Celina and work will begin on the building at once. He also says that the State Surveyor is to be in Celina today to place a gauge in the weir house, so that the amount of water in the big pond may always be known.

Supt. Makley apprised us of the fact that he had sent boat house to the amount of \$417 to the state, and had \$23 ye on hand.

THE GRIM REAPER

Frank Kramer, aged 67 years, died at his home at Maria Stein last Saturday.

About a year ago Mr. Kramer was seized with a severe attack of the grip, from which he never fully recovered.

He is survived by five sons and two daughters.

Funeral services were held last Tuesday morning.

CRIDERSVILLE

Sleuths Run Down Wife Deserter—
Was Piano Tuner—Recently
Left Celina

Saturday afternoon the little village of Cridersville was awakened to a realization of the full majesty of the law. Silas Silvers, piano tuner of Piqua, had deserted his family, a wife and three children, aged three, four and six years. The Humane Society of Piqua took the matter up and a search was made for the recalcitrant husband who had disobeyed the marriage vows and deserted his better half. Several days previous to the capture Silvers had called on the postmaster at Cridersville and asked that his mail be kept at that particular office for him until he called for it. This led to his capture.

The Humane Society notified the police of all the nearby cities and villages to be on the lookout for Silvers, and when he called for his mail at Cridersville Saturday, the postmaster notified the village marshal.

The marshal was shaving and in his eagerness to pursue the fugitive from justice, he dropped his razor and hot-footed it toward the call to duty.

INFANTILE PARALYSIS

The following set of rules to regulate and control infantile paralysis, scientifically known as acute poliomyelitis, have been forwarded to the local board of health for publication for the information of the public:

1. Isolation of the patient and screening to keep out insects. Domestic animals should be excluded from the room.

2. Disinfection or destruction of all discharges, especially the sputum and nasal secretions and excretions from the intestines. Nurse and physician should observe the same precautions regarding their hands and clothing as in attending a case of scarlet fever.

3. A modified quarantine should be observed, consisting of the isolation of the patient and detention of all persons in the home, with the exception of the breawinner. Quarantine should persist for not less than thirty days following the disappearance of acute symptoms. Exposed children must be quarantined for a period of twenty-one days from date of last exposure to the disease.

4. When this disease is present in a community, public gatherings which children will attend should be discouraged.

5. Members of the family and other exposures should use mouth washes and nasal douches under the direction of the attending physician.

6. As soon as practicable after the recovery of the patient, the house should be disinfected with formaldehyde.

The attention of the physicians should be directed to the fact that abortive cases are often associated with typical cases and the same precaution should be observed with such cases.

8. Acute Poliomyelitis has been declared by the state board of health to be a reportable disease. This means that all cases must be reported by physicians to the health officer and by the health officer to the secretary of the state board of health.

9. Since the disease is infectious prior to the onset of paralysis, suspected cases should be reported and quarantined until the exact nature of the disease is known.

CHANCES

For An Unusually Successful Fair
Shown in Inquiries From
Every Source

"This way to the Fair Grounds." The enterprising merchants of the villages of Mercer county have been making more inquiries for exhibits than any year heretofore. This goes to show that it pays to show your wares at the Fair.

Mr. Heckman, superintendent of Agricultural machinery, says he never, in all the time he has been superintendent of machinery, had so many inquiries for spaces for exhibiting of machinery, implements, fences, automobiles, carriages, etc. He says he expects to have the best show Mercer county ever had.

The Fair Management has put a lot of new roofs on their buildings this year, raised and remodeled the grandstand, put in a two-inch tubing fence all the way around the infield of the race track, graded all the drives leading into the grounds and then covered them with stone screenings, so you need not fear of driving in the mud when you come to the Mercer county Banner Fair, 1916.

Ask some of the members of the Fair Board for Rules and Regulations for the Horse Shoe Pitching contest and put in your spare time pitching horse shoes and win a prize at the Banner Fair.

Watch the county papers from now on for announcements of the great Banner Fair.

When you come to the Chautauqua and the Fair, be sure and make "Big Pete's" shoe store your headquarters and you will find that it will seem just like home to you. adv.

GOEKE

Of Wapakoneta Puts One Over
Us, All Right

His Close Friend Lawrence Schunk
Recommended for Postmaster of
Celina—Airing Dirty Linen

A Washington dispatch of the 22nd says Senator Pomerene that day sent to Postmaster General Burleson his recommendation of Lawrence Schunk for Postmaster of Celina.

The appointment of Mr. Schunk was discouraged by the knowing ones, but has nevertheless caused considerable adverse comment. When he returned, from Wapakoneta a few months ago where he had been engaged in business for some time, it was gently intimated he would be Celina's next postmaster, no difference how many candidates Celina might have or how popular or well-liked and deserving they might be. However several gentlemen entered the race and sent their petitions to Senator Pomerene, among them were B. W. Miller, George Peckie, W. H. Anthony, Dillon H. Smalley, J. W. Bell and Mark Beckman. But they run up against a stone wall, and that was J. Henry Goetze, of Wapakoneta, of whom Mr. Schunk was a faithful lieutenant in that dirty campaign all right two years ago between Mr. Cunningham and Mr. Goetze, resulting in the defeat of the former for the nomination an dibe latter at the fall election. This is undoubtedly Mr. Schunk's reward for his work in that campaign.

That Mr. Goetze was able to dictate the postmaster for Celina is rather grinding it may be believed, since Mr. Schunk was the only one among all the candidates mentioned that had his name in any way connected with the dirty religious campaign between Mr. Cunningham and Mr. Goetze, that should put them both in the political graveyard beyond resurrection.

Since we are to have Mr. Schunk for postmaster, for that is what he is, the handwriting on the wall, it is hoped he can rise above the mire, that caused his election.

FRIGHTFUL

Injuries Received by Macedon
Man Last Friday

While Operating Gravel Hoisting
Machine—Lower Part of Abdomen
Torn Open

Nathan Runkles, living one mile north of Macedon, was seriously injured last Friday evening and it was at first thought that it would be impossible to save his life.

Mr. Runkles was operating a machine of his own invention, by which he hoisted gravel from the pit.

The machine was not working just right and in attempting to locate the trouble Mr. Runkles bent over the machine. Some part of the mechanism caught Mr. Runkles in the lower portion of the abdomen and for the skin on this part of the body and half way down to the knee on one leg. He was badly mashed up and little hopes for his recovery are entertained.

Dr. Wm. Lieser, of Ft. Recovery, was called immediately and after seeing the nature of the man's injuries called Dr. A. J. Schirack, of St. Henry, to his assistance.

Last reports from the injured man say that he will in all probability recover.
